COSMETIC DENTISTRY

Not everyone is happy with their smile or how their teeth look. This can have a major impact on a person's confidence when it comes to interacting and socialising with others. Cosmetic dentistry is a field within general dentistry that focuses on the beauty of a smile and covers treatments that enhance, align, and whiten or tone the teeth for a more attractive appearance. This includes treatments such as porcelain veneers, white fillings, teeth whitening, orthodontics, clear braces, CEREC and dental implants. These treatments involve special techniques, equipment and a high level of skill from the dental team. We are proud to offer these to our patients here at the practice and have seen many a smile transformed under our roof. If you are embarrassed by your teeth it's best to speak to your dentist, who can tell you more about the options available in a non-judgemental and empathetic environment and provide you with information about how these can affect your lifestyle while you are undergoing treatment.

Don't hide your smile; allow us bring out its natural beauty with cosmetic dentistry.

We provide the following Cosmetic Treatments

- Teeth Whitening
- White Fillings
- Crowns & Bridges
- Veneers

→ Smile Makeovers

OUR CLINICIAN

A safe pair of hands

Dr Marcus Spry BDS

Clinical Director

(GDC No. 60826)

Dr Marcus Spry BDS has spent many years practicing in Kent. He qualified from the Royal London Hospital Dental Institute in 1985 where he was also a clinical tutor. Marcus established Fresh Dental Care in 2008 with the vision of offering patients a refreshingly personal service. He designed the practice to be welcoming and

friendly, a place where you can come to feel relaxed and cared for, as well as confident that we will help you make the most of your appearance and overall wellbeing.

With a wealth of experience in general dentistry, Marcus is particularly interested in cosmetic dentistry, dental implants, Invisalign® (clear brace orthodontics) and facial aesthetics, having extensively trained in these areas.

Marcus is passionate about his job and providing the highest standards in modern dentistry, which means that he is constantly learning and developing his skills to stay abreast of the latest techniques and technology. With his warm and reassuring chair-side manner, Marcus chats easily to his patients, making them feel heard and understood, and has a deserved reputation as a safe pair of hands.

"I have had a lot of dentistry work done..and it's worthwhile having it done here"
